

Layer and head value-direction evidence — T5-small SCAN add_prim_jump
Source: S-051 (S-051_LEVER_ARM_DISSECTION_V0.1.0). Top-5 heads by walk_fail cosine (option_c). Layer series from option_b. Not a 6x8 head heat map.

(A) Residual stream alignment by decoder position
I_WALK cosine (fail) peaks at L5 — higher than success and than I_JUMP (fail)

(B) Top-5 heads: I_WALK value-direction evidence
Red = repair heads from S-061 (L4H6, L5H5). Causal role: Fig 6 / §7.
